

Advanced Analytical Technologies Fragment Analyzer Automated CE System
Specifications

| Item | |
|-------------------|--|
| Sample Throughput | 12-capillary array |
| Light Source | 700 mA, 10 W LED, 470 nm excitation wavelength |
| Detector | High sensitivity CCD; 500 - 600 nm emission wavelength |
| Consumables | <ul style="list-style-type: none">• DNF474 HS NGS kit• DNF472 HS RNA kit• DNF464 HS Large Fragment DNA Kit• 96 well plate |
